

What is iXchange

The iXchange is designed to replace the traditional currency exchange board and offer a next-generation digital currency exchange solution to display currency exchange rates, product advertising, announcements and other time critical information to your customers. With iXchange admin console, company can deliver currency exchange information with advertising and information content in an animated digital format across LCD screens. Many travel agents, banking organizations, airports, hotels, department stores and money exchange shops rely on this technology to display up-to-the-minute currency exchange rate information, which can be controlled and updated either locally or remotely at the head office over Internet and through their corporate network.

iXchange can be customized and modified to meet specific customer requirements such as using RSS feed instead of customize buy/sell, setting formula to calculate buy/sell rate and integrate with external database etc. and deliver real-time synchronized updates.

Functions and Features:

- Embedded 19 currencies (can be up to 64 countries currency rate)
- Setting exchange rates "From", "To", "Per" "Buy" and "Sell"
- Allow add, edit, delete exchange rate
- Select which exchange rates to be displayed in specific screen
- Customable layout template
- Allow to select pre-defined layout template
- Support Tickers and RSS feed live data
- With digital and analog clock

Key Benefits:

- Easy and quick to install
- Can be standalone or deployed over Internet or corporate network
- Attract customers attention with Full HD display and broadcast quality video
- Centrally manage currency rates at head office to broadcast to all branches
- Integrate rates with advertisements and announcements
- Significantly expand market exposure and product awareness
- Increase sales opportunities

iXchange can be presented in a kiosk stand digital display, a multi-screen wall display, custom enclosures or any combination of bright LCD displays.
